Select Health!

Our network of Family Health Centers, primary care providers, specialty care providers, hospitals, pharmacies and after hours primary care locations support your needs for comprehensive health care at an affordable price.

The HealthSelect network includes 15 hospitals located throughout Maricopa County for use by HealthSelect members. In addition, the comprehensive health care network includes sixteen after hours and urgent care locations. As a HealthSelect member, you can choose from over 600 primary and specialty physicians, which includes the physicians in any of our 11 family health centers located throughout the Valley for your convenience.

HealthSelect offers low copays for prescriptions. The cost for formulary generic prescriptions is \$5 and formulary brand-name prescriptions are \$15. Members may use the Family Health Center pharmacies or any one of over 150 retail pharmacies in Maricopa County, including all Fry's Pharmacies and 49 United Drug locations.

Direct access to select providers in the HealthSelect network is a very popular benefit for members who, without referral from their primary care physician, may choose to see an OB/GYN, internal medicine, pediatric or family practice physician within the HealthSelect network. Members may see most other specialists in the HealthSelect network with only a referral from their primary care physician - no prior authorization is needed.

HealthSelect members can continue to benefit from making healthy lifestyle choices with incentive gifts and awards for working out at any health club or gym on a regular basis; making sure children (ages 0-5) have up-to-date immunizations; seeing the doctor on a regular basis for recommended health screenings or attending a health education or smoking cessation class.

If you have a full-time student attending school outside of the HealthSelect network, you will be happy to know that HealthSelect offers a \$125 per semester allowance toward the purchase of student health insurance. The student must be age 19-25, attend an institute of higher learning outside of Maricopa County, and provide proof of premium payment and insurance coverage.

For more information, call our customer service department: (602) 344-8760

PLEASE NOTE: HealthSelect Attendant Care members must use the Family Health Centers and Maricopa Medical Center.

HealthSelect Plan.

Convenience

Our Primary Care network physicians have locations throughout the Valley, in private practice offices as well as at 11 Family Health Center sites. Many of the Family Health Center locations offer the convenience of pharmacy, primary care and x-ray services all in one location.

HealthSelect members have a choice of 15 hospitals Valley-wide. Members will also find convenience in the wide variety of retail pharmacies offered through the plan - over 150 locations in the metro-Phoenix area. For a listing of pharmacies, providers and hospitals in the new HealthSelect network, refer to the HealthSelect Provider Directory, visit us on the web at www.maricopa.gov/medcenter/healthplans/providerlist/index.html, or call Customer Service at (602) 344-8760.

Value-added Benefits

HealthSelect offers comprehensive health care with no pre-existing condition limitations. Our members benefit from the added value of chiropractic care (no PCP referral required), alternative medicine and direct access to selected specialists. See the back page for a partial listing of the plan's enhanced benefits, incentives and awards.

Enhanced Benefits for HealthSelect 2004
